**Dear Friends,**

**For over a week now, the Jewish state has been under attack: Alongside incessant rocket fire by the Hamas terror group in Gaza, a wave of domestic Arab terror has swept across Israel.**

**Years of poor governance and a lack of enforcement have served as a breeding ground for Arab riots, antisemitic pogroms and a wave of terror against Jews in mixed cities – from north to south.**

**The extent and magnitude of these events caused Regavim to suspend our other activities, and to focus our efforts on helping the residents of Lod , where Jewish residents have been victims of violent attacks, synagogues, schools, homes and vehicles have been burned, and public and private property destroyed.**

Together with residents of Lod and My Israel, Regavim quickly set up a ‘situation room’ that worked round the clock. Volunteers helped us respond to the urgent calls of residents of Lod, Ramle and other mixed cities, and to organize thousands of volunteers who called in and offered to help: medics, drivers, armed ex-officers, caregivers, & more.

**Meir Deutsch, Director General of Regavim, explains:**

*We will not stand by and allow the slaughter of Jewish residents of Lod. We have come to support the Israel Police. Residents are calling in, reporting*

*that rioters are trying to break their doors down, and begging us to send someone to protect them."*

**Here's the full interview>>**

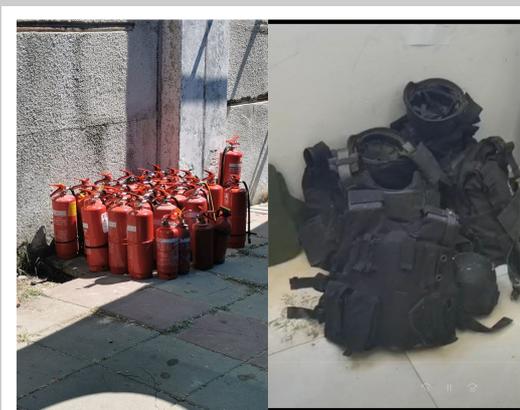

Avraham Binyamin, Spokesperson for Regavim, spent a hard night in Lod:

*"This short report can't describe the night of battle I am witnessing. It's impossible to describe the complete breakdown and the abandonment of citizens in the heart of the State of Israel. The dissonance between the reality here and the bombastic statements by politicians and Police Department officials about curfews, law enforcement, and regaining control is mind-boggling."*

**For a full report from the field, click here>>**

**Equipment purchases:**  
In the past week we purchased basic necessities and equipment to enable us to better protect residents and volunteers: We bought basic medical supplies and equipment, computers for the call center, advanced photography equipment to documenting and bring rioters to justice, and helped provide protective gear for volunteers.

**As with everything we do, none of this would have been possible without your support and partnership. We invite you to participate in this life-saving campaign, and help cover some of the costs we've incurred. Your donation will help us win the Zionist battle for the continued vitality of Jewish life everywhere in Israel.**

**The mutual responsibility of the Nation of Israel has proven itself, once again, in these trying times. Together with thousands of volunteers, we have shown our enemies that the Jewish People remains strong and determined in the face of any and every challenge. We have shown that we will not give up - not in the mixed cities, not in the Negev, and not in Judea and Samaria.**

**We are here to stay.**

Together with all the People of Israel,  
we hope and prayer for more peaceful times ahead.
