Partners' Update from Regavim

Dear Friends and Partners,

We are six weeks into the war – a war thrust upon us, a war that is both justified and moral, a battle for our beloved homeland.

We are experiencing dark days of heart-wrenching loss and sleepless nights on duty on the front lines and the home front, but at the same time we are experiencing an outpouring of warmth, love, mutual support, untold large and small acts of kindness, as well as miracles large and small.

In this very challenging time, we at Regavim are focusing our efforts on public diplomacy, both within Israel and on the international stage, in a variety of languages and in every medium at our disposal. We continue to make every effort to shore up national morale and to reinforce the conviction and clarity of purpose that are at the very core of our nation's critical needs. We have added our particular talents to the effort to speak on Israel's behalf in a clear, unwavering, unified voice and to express the vision of a safe and peaceful future for Israel - a future we at Regavim have been working to achieve for over 17 years.

Together with you, and with the entire People of Israel, we pray for good news. Together, we are invincible!

Regavim

**הַצִּבִּי יִשְׂרָאֵל עַל-בְּמוֹתֶיךָ חָלַל אֶיךָ נָפְלוּ גִבּוֹרִים:  
Your glory, O Israel, lies slain on your heights; how have  
the mighty fallen! (II Samuel, 1:19)**

Early this month we received the tragic news that our dear friend and partner, Dr. Eitan Ne’eman, had been murdered.

Eitan, who lived in Tene Omarim with his wife and seven children, was a senior physician in the Children’s Intensive Care Unit of Soroka Hospital, and fell while battling terrorists in Sderot.

The Regavim family extends heartfelt condolences to the Ne’eman family and to all those who have lost loved ones. May we all be comforted in the rebuilding of our homeland.

**Charting a course for “the day after”**

Since the first day of the war, Regavim has been spearheading the campaign against the bizarre notion of handing control of the Gaza Strip to the Palestinian Authority when the war is over. We have proven beyond any shadow of doubt – to the Israeli public and its elected representatives, and to the world - that the equation of terror is simple: Hamas = Fatah = Palestinian Authority, and vice versa.

Here are some of the materials we presented to the world - incontrovertible proofs that have turned the tide and anchored clear statements of intent by the Israeli government.

“O servant of Allah, there is a Jew hiding behind me. Come and kill him!”

Our exclusive expose’ of an official Palestinian Authority document calling upon PA-employed religious leaders to incite to murder Jews in Friday sermons throughout Judea and Samaria received worldwide attention – and the Israeli government was forced to address decades of Palestinian Authority incitement, antisemitism and violations of the most basic threshold of legitimacy. **“Inshallah, the West Bank is next.”**  
If you’ve been scanning the media for a statement by the Palestinian Authority or its leadership condemning the October 7<sup>th</sup> massacre but haven’t found anything – it’s not your fault:

While you’ve been waiting, looking, searching, PA leadership has been exalting the barbarism, glorifying the murder of innocents, celebrating both Hamas’s and their own involvement in the slaughter. [Watch this extremely disturbing collection of public statements by top PA officials applauding the massacre >>>](#)

And what does the Palestinian Authority’s President A-Shatayyeh have to say? [See for yourself >>>](#)

**They mean what they say, and they say what they mean. It’s time to listen.**  
PA Minister Muayyad Shaaban, the leader of the Palestinian Authority’s annexation of Area C, is no stranger. His official role as Head of the Palestinian Authority’s Resistance to the Security Wall and Settlements has given him an ideal platform to speak his mind for years – and it’s time that his words are heard and fully understood so that we can finally come to terms with the actual positions of the Palestinian Authority’s key leaders. [Here he is, in his own words >>>](#)

## The PA Conquest of the Security Buffer Zone

We released our findings and analysis, based on real-time aerial photography and GIS analysis of the Palestinian Authority's conquest, focusing on the areas adjacent to Israel's security barriers, along the entire length of the "seam line" between Judea and Samaria and "little Israel." Our findings are earth-shattering and ominous. ### **Pushing back against the “settler violence” blood libel**

The vacuum created by the State of Israel’s failure to enforce the law and protect the open spaces of Judea and Samaria has been filled by anarchists, extreme-leftist organizations and a host of anti-Israel organizations that continue to invest astronomical sums in a well-orchestrated campaign to take over Area C. Part of this campaign is based on shoring up “Palestinian narratives,” and the outbreak of the war was seized by these anti-Israel forces as a golden opportunity to amplify the “settler violence” canard that has been in the works for years. The momentum achieved in recent weeks has had a devastating influence on worldwide public opinion and policy-makers.

We hosted over 30 foreign journalists from major international news outlets in a fact-finding tour to expose the sources of the fake news and to push back against the falsehoods. [See highlights here >>>](#)

### **Hypocrisy, corruption and ‘newspeak’: Follow the money**

Every year, hundreds of millions of Euros make their way from the European taxpayer’s pocket to Gaza, where they are meant to provide relief for “unfortunate Palestinian refugees.” Even now, while 240 hostages remain in the hands of bloodthirsty terrorists and our brave soldiers are laying their lives on the line, convoys of “humanitarian aid” and fuel are streaming into the Gaza Strip – straight into the hands of Hamas. ## **So why are the Arab countries Not ready to accept the refugees from Gaza?**

### **Brigitte Gabriel, an international journalist, says:**

Lebanon was a country with a Christian majority that prided itself on its multiculturalism, which made it the ‘Paris of the Middle East’.

It ended when the country received a wave of Palestinian refugees who just wanted to use their land for the destruction of the State of Israel.

From that moment on, their lives become hell. Bridget lived seven years of her life in a shelter without electricity and water, under constant danger from sniper fire. According to her, the dream was to flee to Israel, where they knew that no harm would come to them.

## What do the Arab states know that Western “humanitarians” don’t know – or don’t want to know?

Why isn't there a single Muslim country willing to accept Palestinian refugees? Why isn't there a single "humanitarian organization" calling upon the "Arab brethren" of the people of Gaza to provide them either safe haven or safe passage to escape the ravages of war? Brigitte Gabriel, a world-renowned journalist and geopolitical analyst knows why. [Tamar Sikurel, Regavim's spokesperson, explains >>>](#)
